

Do you want to be part of a diverse and international company where we create software for exciting production processes? PSI Metals is the internationally leading software and consulting company for production management solutions in the steel and aluminum industry. With our innovative product developments and our industry focus, we actively participate in the decarbonization of our customers and aim to be carbon-neutral ourselves by the end of 2026 (net zero by 2030). We are the global number 1 in our market.

To support our employees in Düsseldorf, we are looking for a dedicated new colleague as

Working Student in Product Maintenance

Type: 20 hours/week, up to 40 hours possible during semester breaks

Region: NRW

Business Unit: PSI Metals GmbH Düsseldorf

What will you do?

At our location, we are a team of 61 employees from various countries, with 11 people in product maintenance, including two students. Our product maintenance team is spread across the sites in Düsseldorf, Aachen, and Poznan, and is also closely connected with our site in Watford. Our customers are located in Germany, France, Spain, Belgium, Holland, Australia, England, India, ...

To offer our customers the best possible software quality, we want to expand our testing capabilities. You would create test cases with others that we bring to our customers. After successful training, it would be possible to also tackle configuration and programming tasks for projects in the future.

What do you bring?

- Ongoing Bachelor's or Master's degree
- MS Office knowledge
- Knowledge of the following languages is an advantage: Java, SQL, PLSQL, XML
- German language skills are an advantage, but not necessary. However, you should have enough English proficiency to work in an international team.

What do we offer

- Independent working
- Flexible working hours and a pleasant working atmosphere with helpful colleagues
- An international and diverse team
- Versatile work, long-term commitment, development opportunities, and tasks that suit you
- ... and what you don't yet know, you'll learn with us!

Please send us your complete application documents (CV + cover letter) indicating the earliest possible start date to jobs.met@psi.de
