

Exciting opportunity to join our working group as a **research assistant at the Institute of Pathology!**

The Institute of Pathology of the Heinrich-Heine University / University Hospital of Düsseldorf (Chair: Univ.-Prof. Dr. Irene Esposito) has an open position for a

Research Assistant (f/m/d) with Bachelor's Degree (WHK)

for dedicated support for one of our ongoing projects. The focus of the project is to *develop digital reporting templates using special tools for automatization and standardization of pathology reports.*

Your role:

- You will develop and work with a preexisting reporting program
- You will be responsible for the implementation of relevant parameters in the system
- You will contribute to digitally co-registration of the radiological images and digitalized histopathology slides
- You will provide support for the integration of the created templates in the institute's laboratory information system

Required qualifications:

- A bachelor's degree in informatics/ bioinformatics or related field
- Interest in software development and experience with coding / programming
- Experience with digital image analysis
- Good organizational skills, curious personality and willingness to work independently
- Very good German and/or English speaking skills

The position is available immediately for the next 18 months, max. 17 hrs/week.

Interested applicants should send a short motivation letter and CV to Prof. Dr. Irene Esposito by email: irene.esposito@med.uni-duesseldorf.de
